How Your Money Is Being Spent:

2017 Woods, Zero Turn Lawn Mower Paid For In Full

The Village of Hopkins Park recently purchased a 2017 Woods, diesel engine, Zero Turn mower. This is an investment for the Village that will last for many years to come. The past two years, the Village maintained its properties with a borrowed zero turn mower. Not any more, this mower comes with all the bells and whistles and a warranty. One thing this mower does not come with is payments. With the support of the trustees and treasurer; the mayor set aside money and paid cash. The Village is moving in the right direction.

New Siren On Gamble Road

The Village board has approved the purchase of a new tornado siren to replace the inoperable siren on Gamble Road. Braniff Communications Inc. was selected to install this rotating directional siren. The public will be notified of installation and test dates when confirmed. Braniff Communications Inc. is the siren provider for the majority of Villages and Townships in Kankakee County, they come highly recommended by current clients.

Cameras and Security systems

The Village has been proactive when it comes to security. Cameras and alarm systems have been installed for the past year on Village properties. With the recent rash of burglaries, we encourage the public to take measures to secure your property.
